In Alabama approximately 40,000 children a year are subjected to being court ordered to seeing one of their fit parents 48-56 hours a month. This is the most important civil and human rights issue of today. Our children cannot speak for themselves on this issue. They need us to do it for them. That's the point of the Family Law Reform Educational Day and Rally.

Individuals with the common interest to change the child custody law practices and protect children relationships with both parents are invited to participate. Hot dogs, chips, and bottled water will be provided for participants through generous donations by the Isaak Law Firm.

Come early for best parking. (Parking around the statehouse is meter parking).

*****Custom-made signs that accurately support family law reform are welcome during the 12 pm to 1 pm rally.**
