I am writing to request a meeting with you about updating child custody law practices. Several concerned citizens, as well as myself, will be traveling to the Statehouse in Montgomery, on April 25, 2019, to meet with our respective legislators.

This very important gathering has been organized by the Alabama Family Rights Association (ALFRA) and Concerned Citizens for Children. ALFRA has spent the last eight years talking to family law experts throughout the country interviewing thousands of victims of the Alabama family law practices. Many of these victims have provided written Legislative Testimony the last several years. Copies of testimonies can be accessed [here](#).

I am requesting a few minutes of your time to discuss our concerns about the current child custody law practices and hear your view(s) on equal access for children during a child custody situation. I wish to hand deliver our proposed remedy via legislation.

I can meet with you anytime on Thursday, April 25th. I can be reached at the phone number(s) above. I look forward to hearing from you soon.

Respectfully yours,

Mr. John E. Doe
